15TH ANNUAL
TSF DINNER

Wednesday, November 18, 2026

National Building Museum • Washington, D.C.

CELEBRATING THE 15TH ANNIVERSARY OF THE SECURITY FOUNDATION

An evening celebrating 15 years of strengthening public-private partnerships and bringing the security community together to help keep U.S. citizens and interests safer at home and around the world.

The Security Foundation

DETER. DETECT. RESPOND.

AUTONOMOUS
SECURITY FORCE

You are accountable for everything that happens on your property. Now commission a force accountable to you.

NOT A PRODUCT YOU BUY — AN OPERATION YOU COMMAND.

24/7/365 AUTONOMOUS PATROL	DESIGNED & BUILT IN THE USA	A FORCE MULTIPLIER FOR YOUR TEAM

KNIGHTSCOPE

KNIGHTSCOPE.COM

OUR MISSION: MAKE THE UNITED STATES OF AMERICA THE SAFEST COUNTRY IN THE WORLD.

Welcome

Tonight, we come together to celebrate the 15th anniversary of The Security Foundation and recognize the community that has made its work possible.

For 15 years, The Security Foundation has served as a trusted, neutral convener, bringing government, industry, and the broader security community together around a shared purpose: helping keep U.S. citizens and interests safer at home and around the world.

Through the generosity of our supporters, TSF strengthens public-private partnerships, advances trusted information sharing, and provides critical funding for programs and initiatives that address the evolving needs of the security community. We remain committed to stewarding that support responsibly, operating with transparency, and demonstrating the impact made possible by every contribution.

This anniversary is both a celebration of what we have accomplished together and a recommitment to the work ahead. As security challenges continue to evolve, TSF will remain focused on building trusted relationships, supporting meaningful collaboration, and investing in a safer, more resilient future.

Thank you for joining us to celebrate this milestone and for being an important part of The Security Foundation's story.

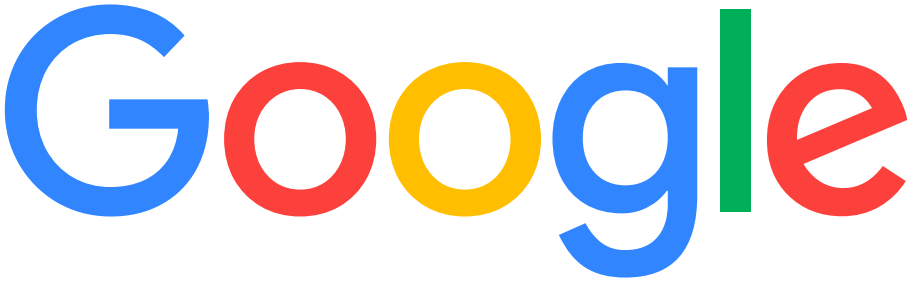

Warm regards,

Dave Komendat
President

Peggy O'Neill
Executive Director

Charred Heirloom Carrots, Red Wine Reduction

WINE SELECTION

Dry Creek Vineyard

Chenin Blanc 2023, Clarksburg, California

Hamilton Creek

Cabernet Sauvignon 2023, Napa Valley, California

DESSERT RECEPTION TO FOLLOW

Ambassador Nicholas Burns

Former U.S. Ambassador to China

Former U.S. Ambassador to NATO

Former National Security Council Director for Russia/Ukraine Affairs

Veteran U.S. Diplomat Who Served Six Presidents and Nine Secretaries of State

With more than three decades of experience in U.S. diplomacy and international affairs, Ambassador Nicholas Burns brings a distinguished perspective on global security, international partnerships, and navigating complex geopolitical challenges.

Most recently, Ambassador Burns served as U.S. Ambassador to China from 2021 to 2025, leading a multi-agency mission that advanced U.S. interests across a broad range of security, economic, and diplomatic priorities.

Throughout his career, he has played a key role in strengthening international partnerships, including through his service as U.S. Ambassador to NATO and at the National Security Council, where he focused on Russia and Ukraine affairs for Presidents George H.W. Bush and Bill Clinton.

Having served six Presidents and nine Secretaries of State across both parties, Ambassador Burns reflects a deep commitment to public service and a longstanding focus on advancing collaboration across governments, institutions, and sectors. The Security Foundation is honored to welcome him as the keynote speaker for its 15th Annual Dinner.

Congratulations!

OSAC AWARD WINNERS

Distinguished Achievement Award, OSAC Program Office
Samuel Vicroy, Analysis Deputy Team Lead

Distinguished Achievement Award, Private Sector
Victor Lim Kok Hooi, Regional Security Leader, Cummins Inc.

Paul Szawranskyj, Cincinnati Field Office

Distinguished Achievement Award, DHS Representative
Nicholas Manago, USSS, Washington D.C.

Distinguished Achievement Award, Private Sector DSAC Member
Chris Davis, Microsoft

SECURITY COALITION FOR ENGAGEMENT AND ADVANCEMENT (SCEA)

On May 5, 2026, security professionals from across sectors gathered for the Fourth Annual SCEA Summit to strengthen connections, assess progress, and plan the coalition's next year of work. Centered on the theme of Connection, Impact, and Continuity, the Summit reflected SCEA's continued evolution from building its foundation to delivering coordinated workforce solutions.

The Security Coalition for Engagement & Advancement (SCEA) is a talent pipeline and workforce development initiative dedicated to strengthening the future of the security profession. Convened by The Security Foundation, SCEA brings together leaders from industry, government, academia, nonprofits, and the broader security community to address shared workforce challenges collectively.

SCEA's framework supports the full talent journey:

- **Discover opportunities in the security profession**
- **Enter through clearer career pathways and transition support**
- **Develop through education, resources, and professional networks**
- **Advance through mentorship and leadership opportunities**
- **Lead through continued growth and industry engagement**

During the Summit, participants identified opportunities to streamline coordination across committees, develop shared research and resources, expand education around artificial intelligence and security careers, and strengthen SCEA's presence across the profession. Committees also established practical content and programming plans for the coming year, including webinars, career resources, mentorship initiatives, and educational content addressing the needs of professionals at different career stages.

SCEA is not focused on a single employer, sector, or audience. It serves as a neutral platform through which the security community can build the infrastructure needed to attract, develop, retain, and advance talent.

With the continued support of The Security Foundation and SCEA's volunteer leaders and partners, the coalition is building a stronger talent pipeline and helping create a more connected, resilient, and future-ready security profession.

For more information, visit the SCEA page: **securityfdn.org/scea/**

Tools to Proactively Deter Incidents at Your Business

License Plate Readers

Know which vehicles entered, exited, or repeatedly visited your property.

Video Cameras

Fixed and PTZ cameras allow you see what's happening and verify what deserves action.

Gunshot Detection

Get alerted in less than a minute of an outdoor gunshot being fired.

Mobile Security Trailer

Add high visibility coverage and proactive deterrence wherever it is needed.

Turn-Key Solution

Flock devices run on solar power and LTE, so they can be installed anywhere on your property with no additional utility bills. They require zero network integration, so no need to involve IT teams.

Hold Bad Actors Accountable

Our LPR cameras and video security systems are specifically designed to capture the vehicle evidence needed to bridge the gap between identifying bad actors and holding them accountable.

Automated Threat Detection

When a known offender's vehicle enters your property, security teams receive instant notifications, providing a critical response window to address potential threats.

Support Optional Partnership With Law Enforcement

Businesses can choose to share LPR and video camera data directly with law enforcement to enable a swifter, more coordinated response to incidents or bad actors.
